des forêts

The Canadian Forest Service's Northern Forestry Centre is responsible for fulfilling the federal role in forestry research and technology transfer in Alberta, Saskatchewan, Manitoba, and the Northwest Territories. The main objectives are research in support of improved forest management for the economic, social, and environmental benefit of all Canadians.

The Northern Forestry Centre is one of five centers of the Canadian Forest Service, which has its headquarters in Ottawa, Ontario.

Le Service canadien des forêts, Centre de foresterie du Nord, représente le gouvernement fédéral en Alberta, en Saskatchewan, au Manitoba et dans les Territoires du Nord-Ouest en ce qui a trait aux recherches forestières, et au transfert de technologie. Cet organisme s'intéresse surtout à la recherche en vue d'améliorer l'aménagement forestier afin que tous les Canadiens puissent en profiter aux points de vue économique, social et environnemental.

Le Centre de foresterie du Nord constitue l'un des cinq établissements du Service canadien des forêts, dont l'administration centrale est à Ottawa (Ontario).

ABSTRACT

The secondary wood-using industry in Saskatchewan was surveyed in the early part of 1999; telephone interviews were conducted with each firm. This directory provides information about each firm (location, telephone number, facsimile number, executive officer, number of people employed, raw materials used in the manufacturing process, and a priority products listing). This information can be accessed through the company name or via the products and services they produce. Information on related organizations and associations is also provided.

RÉSUMÉ

Au début de 1999, l'industrie de la transformation secondaire du bois en Saskatchewan a fait l'objet d'une étude; des interviews téléphoniques ont été réalisées auprès de chaque entreprise du secteur. Le présent répertoire fournit de l'information au sujet des entreprises interviewées (lieu, numéro de téléphone et de télécopieur, cadre de direction, nombre d'employés, matières premières utilisées dans le processus de transformation et liste des produits principaux). On peut avoir accès à ces renseignements soit à l'aide du nom des entreprises, soit à l'aide des produits et des services offerts. On y trouve également de l'information concernant des organisations et des associations connexes.

DISCLAIMER

The views, conclusions, and recommendations are those of the authors. The exclusion of certain manufactured products does not necessarily imply disapproval, nor does the mention of other products necessarily imply endorsement by the Canadian Forest Service.

INTRODUCTION

This directory lists and describes the firms comprising the secondary wood-using industries in Saskatchewan for 1998–99. At that time, 252 secondary wood-using firms provided employment for 2218 persons. The firms consumed 44.5 million board feet of lumber, 13.6 million square feet of panelboard, and 54.8 thousand tonnes of paper products. Survey highlights of the converted forest products industry are summarized in Tables 1 and 2 and Figures 1–3.

There are 22 sheltered workshops, vocational training centers, and abilities councils listed in this directory. All are members of the Saskatchewan Association of Rehabilitation Centers (SARC), which is an umbrella organization for all vocational and residential programs for people with disabilities in Saskatchewan. These firms provide employment for a great number of people in the secondary wood-using industry.

The secondary wood-using industries include all firms principally engaged in the further processing of primary wood products, lumber, panel products, and paper. All firms found in this directory can be categorized by their principal products in one of 19 North American Industry Classification System (NAICS) codes as follows:

NAICS Code	National Industry Class
321215	Structural Wood Product Manufacturing
321911	Wooden Window and Door Manufacturing
321919	Other Millwork
321920	Wood Container and Pallet Manufacturing
321992	Prefabricated Wooden Building Manufacturing
321999	All Other Miscellaneous Wood Product Manufacturing
322211	Corrugated and Solid Fiber Box Manufacturing
322212	Folding Paperboard Box Manufacturing
322219	Other Paperboard Container Manufacturing
322220	Paper Bag and Coated and Treated Paper Manufacturing
322230	Stationery Product Manufacturing
322291	Sanitary Paper Product Manufacturing
322299	All Other Converted Paper Product Manufacturing
337110	Wooden Kitchen Cabinet and Counter Top Manufacturing
337121	Upholstered Household Furniture Manufacturing
337123	Other Wood Household Furniture Manufacturing
337127	Institutional Furniture Manufacturing
337213	Wood Office Furniture, Including Custom Architectural Woodwork Manufacturing
337215	Showcase, Partition, Shelving, and Locker Manufacturing

Firms, especially smaller firms, are very flexible in terms of the products they manufacture. They can very quickly shift from one group of manufactured products to another. This makes differentiation between industry classifications difficult. On a product by product basis some firms could

be found classified in other closely related NAICS industry codes but were included in this directory as it was felt they better represented the secondary wood-using industry.

The secondary wood-using industries were surveyed by telephone in early 1999. The survey requested information on firm location, employment, products by priority, quantity and type of wood or paper materials used, source of wood, species, and value of sales and markets.

The directory also provides information on organizations and associations relevant to the secondary wood-using industries. A table of metric conversion factors is also included.

The purpose of this directory is to:

1. characterize the secondary wood-using industry in terms of its importance to the economy of Saskatchewan;
2. identify possible markets for Saskatchewan's primary wood products;
3. assist buyers to purchase Saskatchewan manufactured goods;
4. bring buyers and sellers together;
5. show "who's who" in the secondary wood-using business; and
6. generate a greater public awareness of Saskatchewan's wood products.

The Canadian Forest Service has also published the *Directory of primary wood-using industries in Saskatchewan, 1999*. Both directories are available free of charge from the Canadian Forest Service, at:

ABBREVIATIONS AND TERMS USED IN THIS DIRECTORY

General terms:

MDF	medium density fiberboard
OSB	oriented strandboard
n/a	not relevant or unavailable

Tree species:

S-P-F	spruce, pine, fir
wS	white spruce
jP	jack pine
PnP	ponderosa pine
tL	tamarack/larch
DgFr	Douglas-fir
bF	balsam fir
hem/fir	western hemlock, red, grand, noble, silver, white fir
cedar	western red cedar
wB	white birch
tA	trembling aspen
bPo	balsam poplar
oak	red oak and white oak
mxdhwd	mixed hardwood: maple, cherry, walnut, mahogany, and others

TABLE 1
Consumption of Forest Products by Secondary Wood-using Industries in Saskatchewan in 1998

Lumber

- ◆ 44.5 million board feet
 - Includes all sizes, both softwoods and hardwoods.

Wood-based Panelboards—sheet material

- ◆ 13.6 million square feet
 - Includes both structural and non-structural panels, such as softwood, plywood, hardwood faced panels, particleboard, melamine, laminated faced panels, oriented strandboard, and medium density fiberboard.
 - Sheet materials in all thicknesses.

Paper and Pulp Material

- ◆ 54 800 tonnes
 - Includes corrugated paper, liner board, box board, bleached and nonbleached kraft papers, as well as recycled newsprint.

TABLE 2
Size of Firms in Secondary Wood-using
Industries in Saskatchewan in 1998

Size of firm by number of employees	Number of firms (% of total)	Number of employees (% of total)
1-4	134 (53.2)	309 (13.9)
5-9	54 (21.4)	342 (15.4)
10-19	35 (13.9)	438 (19.8)
20-49	24 (9.5)	643 (29.0)
50-99	3 (1.2)	236 (10.6)
100-249	2 (0.8)	250 (11.3)
Total	252 (100)	2218 (100)

wood-using industry in Saskatchewan in 1998

HOW TO USE THIS DIRECTORY

Section I Listing of Firms

This consists of a listing of firms in alphabetical and numerical order. Included in this section are the name, address, executive officers, telephone number, facsimile (fax) number, staff size, and products manufactured by the firm and raw materials used by the firm in the manufacture of their products.

Up to six products manufactured by the firm are listed in order of importance to each firm (from highest to lowest). Product wording, in some cases, has been changed slightly to conform to the overall product list.

Raw materials have been grouped into three types: lumber, panelboard, and paper products. Each type may have four species or different kinds of product identified. Materials are not listed in any order of priority.

Section II Listing of Firms by Products and Services

Information is arranged by products and services. It provides an alphabetical listing of products and services of the firms. If a firm produces a number of different products or services, it will be listed under each of the appropriate product headings. Firms can be located in Section I by number.

Section III Information Sources

This consists of a listing of information sources that may be of use to secondary wood products manufacturers or other users of this directory. Included are a directory of both regional and national organizations and associations relevant to the secondary wood products industry and a table of metric conversion factors for selected forestry units.

*We regret any errors in or omissions from this directory. If your firm is unlisted or listed incorrectly in this directory, please notify the Canadian Forest Service in Edmonton regarding corrections.
Thank you.*

SECTION I

LISTING OF FIRMS

1. 7 Oaks Manufacturing (1991) Ltd.

P.O. Box 547
Watson, SK S0K 4V0

Executive Officer: Richard Muyres

Telephone: (306) 287-3111

Fax: (306) 287-3111

Employees: 3

Products:

furniture, household
furniture, office
refinishing & repairing

Materials Used:

lumber, oak
panelboard, melamine
panelboard, plywood

2. A Muhle Construction & Cabinets Ltd.

910 Fairford Street West
Moose Jaw, SK S6H 7N6

Executive Officer: Albert Muhle

Telephone: (306) 694-4166

Fax: (306) 694-0808

GRADING NOTES

Grading of Lumber for Value-Added Manufacturing

The purpose of grading rules is to maintain a measure of value among sawmills that manufacture the same or similar woods, resulting in uniform qualities. In general, a softwood board is graded as a whole piece, while a hardwood board is graded on its usable content aside from any parts that may be considered undesirable. Factory lumber is graded from the poorer face of the board for both hardwoods and softwoods. Provisions of grading rules may be set aside by mutual agreement of buyer and seller.

Summary of Hardwood Grading Rules for Factory Lumber

Grade	Minimum Width (in.)	Length Range ^a (ft)	% Clear Length Face ^b	Minimum Clear Cutting Size (in. × ft)
First	6	8 – 16	91.67	4 × 5 or 3 × 7
Second	6	8 – 16	83.33	4 × 5 or 3 × 7
Select	4	6 – 16	91.67	4 × 5 or 3 × 7
No. 1 Common	3	4 – 16	66.67	4 × 2 or 3 × 3
No. 2 Common	3	4 – 16	50.00	3 × 2

^a Measured in 1-foot increments.

^b Percentage of the poor face to be made of clear cuttings.

Summary of Softwood Grading Rules for Factory Lumber

(lengths 4' and longer, 1-foot increments)

Width of Lumber (in.)	Length of Cutting (ft)	Width of Cutting (in.)	Quality	Grade	% of Piece Containing Cuttings
9½ and wider	18	9½	Clear both sides	Select	70 and greater
5 and wider	3	5	B Industrial	No. 1	50 – 70
<5	3	Full width	B Industrial	No. 2	33.33 – 50

Kiln Drying Standards

- ◆ *Construction Dry* has a moisture content of 19%. This applies to softwood dimension lumber.
- ◆ *Industrial Dry* has a moisture content of 10–12%. This applies to softwood used in value-added manufacturing such as wood windows.
- ◆ *Specialty Dry* has a moisture content of 6–8%. This applies to hardwoods used in value-added wood manufacturing such as residential wood furniture and flooring.

Typical Lumber Thicknesses Used in Value-Added Wood Manufacturing

(Hardwood species and pine are the most frequently used woods.)

Description	Specialty Dry (in.)	Green (in.)
4/4	1	1 $\frac{1}{6}$
5/4	1 $\frac{1}{4}$	1 $\frac{3}{8}$
6/4	1 $\frac{1}{2}$	1 $\frac{5}{8}$
8/4	2	2 $\frac{1}{8}$

ACKNOWLEDGMENTS

Sincere appreciation goes to all persons who contributed information to make this directory possible, especially the owners and managers of the secondary forest products industry in Saskatchewan. Their contribution is gratefully acknowledged.

The authors thank Jennifer Scanlon for entering the data. Appreciation is also extended to Kelly Petkau and Ben Wong (Canadian Forest Service) for their computer programming assistance.
