Service

Le Service canadien des forêts, région du Nord-Ouest, représente le gouvernement fédéral en Alberta, en Saskatchewan, au Manitoba et dans les Territoires du Nord-Ouest en ce qui a trait aux recherches forestières, à l'aménagement du territoire et au transfert de technologie. Cet organisme s'intéresse surtout à la recherche et à l'aménagement du territoire en vue d'améliorer l'aménagement forestier afin que tous les Canadiens puissent en profiter aux points de vue économique, social et environnemental. Le bureau de la région du Nord-Ouest est également responsable de la mise en oeuvre des ententes forestières fédérales-provinciales au sein de ces trois provinces et du territoire concerné.

Les activités régionales sont gérées à partir du Centre de foresterie du Nord dont le bureau est à Edmonton (Alberta); on trouve également des bureaux de district à Prince Albert (Saskatchewan) et à Winnipeg (Manitoba). La région du Nord-Ouest correspond à l'une des six régions du Service canadien des forêts, dont le bureau principal est à Ottawa (Ontario). Elle représente également deux des instituts nationaux de foresterie de ce Ministère.

The Canadian Forest Service's Northwest Region is responsible for fulfilling the federal role in forestry research, regional development, and technology transfer in Alberta, Saskatchewan, Manitoba, and the Northwest Territories. The main objectives are research and regional development in support of improved forest management for the economic, social, and environmental benefit of all Canadians. The Northwest Region also has responsibility for the implementation of federal-provincial forestry agreements within its three provinces and territory.

Regional activities are directed from the Northern Forestry Centre in Edmonton, Alberta, and there are district offices in Prince Albert, Saskatchewan, and Winnipeg, Manitoba. The Northwest Region is one of six regions and two national forestry institutes of the Canadian Forest Service, which has its headquarters in Ottawa, Ontario.

RÉSUMÉ

Ce document énumère alphabétiquement (par auteur) les publications scientifiques et techniques ainsi que les ouvrages de vulgarisation qui ont été rédigés par le personnel du Centre de foresterie du Nord ou publiés par le Centre entre 1991 et 1993. Un index des sujets est présenté pour les notices principales. On y trouve également à l'annexe une liste des rapports préparés dans le cadre des ententes fédérales-provinciales d'association en foresterie signées avec l'Alberta, la Saskatchewan et le Manitoba.

ABSTRACT

Scientific, technical, and interpretive publications written by staff of the Northern Forestry Centre during 1991–93 are listed alphabetically by author. A subject index is provided for the main entries. In addition there is an appendix listing reports prepared under the federal–provincial agreements in forestry for Alberta, Saskatchewan, and Manitoba.

PRÉFACE

Depuis son ouverture en 1970, le Centre de foresterie du Nord a produit une montagne de documentation sur la recherche forestière. Les bibliographies générales antérieures couvrent la recherche effectuée dans l'ancienne région Manitoba-Saskatchewan avant 1968 (Hildahl et collab., 1968), ainsi que les travaux réalisés dans les Prairies et les Territoires du Nord-Ouest de 1968 à 1979 (Dendwick et collab., 1980) et de 1980 à 1986 (Samoil et Turtle, 1988) et de 1987 à 1990 (Leroy 1991). Dans la dernière de ces listes sont énumérés près de 300 ouvrages publiés par le personnel du Centre entre 1987 et 1990.

Des rapports d'information, des *Forestry Reports*, des *Forest Management Notes* et des revues de programmes, tous publiés par le Centre de foresterie du Nord, ainsi que des articles de revues et de symposiums et des publications diverses, sont classés par ordre alphabétique, selon le nom de leur auteur. Un index thématique permet un renvoi aisément aux noms d'auteurs. De plus, une annexe donne la liste des rapports préparés en vertu de l'Entente d'association Canada-Alberta en foresterie, de l'Entente d'association Canada-Saskatchewan en foresterie et de l'Entente d'association Canada-Manitoba en foresterie.

La bibliographie a pour but d'aider la recherche et ne doit pas être considérée comme un catalogue pour commander les ouvrages. Beaucoup des publications du Centre qui ne datent que de quelques années sont déjà épuisées. Des photocopies seront donc remises quand il sera possible de le faire. Un nombre limité de copies du matériel publié ailleurs est aussi disponible au Centre de foresterie du Nord, mais, si possible, ces publications doivent être obtenues de l'éditeur même, ou de bibliothèques.

RAPPORTS SUR LES ENTENTES D'ASSOCIATION EN FORESTERIE

Les rapports mentionnés ci-après ont été rédigés par des entrepreneurs privés ou par le personnel du Centre de foresterie du Nord et de ses bureaux régionaux de Prince Albert, en Saskatchewan, et de Winnipeg, au Manitoba, grâce aux fonds de trois ententes fédérales-provinciales d'association en foresterie, en vigueur de 1990 à 1995. Le Service canadien des forêts, a administré l'Entente d'association Canada-Alberta en foresterie (30 millions de dollars), avec le ministère des Forêts, des Terres et de la Faune de l'Alberta; l'Entente d'association Canada-Saskatchewan en foresterie (30 millions de dollars), avec le ministère des Parcs, des Loisirs et de la Culture de la province; et l'Entente d'association Canada-Manitoba en foresterie (30 millions de dollars), avec le ministère manitobain des Ressources naturelles. On compte également l'Entente (de coopération) Canada-Territoires du Nord-Ouest (2,7 millions de dollars) entre le Service canadien des forêts et le gouvernement des T-N-O.

SUBJECT INDEX

Dans l'index de sujets qui suit, les principaux sujets des recherches effectuées au Centre de foresterie du Nord de 1991 à 1993 sont classés en ordre alphabétique. Un grand nombre de ces sujets ont été subdivisés en des catégories plus spécifiques. Pour chacun des sujets ou chacune des catégories, les auteurs sont classés en ordre alphabétique et les citations, en ordre chronologique. Les sujets et les catégories sont les suivants:

- Bassins hydrographiques et hydrologie
Biomasse et ENFOR (Programme de l'énergie de la forêt)
Classification biophysique
 Classification et utilisation des terres
 Sols
Climat
Économie
Épinette blanche
Épinette noire
Gestion de la faune
Gestion de la végétation
Incendie
 Brûlage dirigé
 Écologie et comportement
 Gestion
 Prévision et détection
 Suppression
Industrie et produits forestiers
Insectes
Inventaire forestier
Maladies
Paléogéologie
Pépinières
Peuplier faux-tremble et peuplier
Pin gris
Pin tordu
Préparation des emplacements
Productivité forestière
 Accroissement du peuplement forestier
 Agents bénéfiques
 Éclaircie
 Fertilisation
 Modèles et systèmes d'aide à la prise de décision
Programme du Centre de foresterie du Nord
Régénération
 Artificielle
 Naturelle
Substances toxiques
Télédétection
- Il est à noter que les rapports découlant des trois ententes de mise en valeur des forêts (énumérés à l'annexe 1) ne figurent pas dans cet index.
