Le Service canadien des forêts, Centre de foresterie du Nord, représente le gouvernement fédéral en Alberta, en Saskatchewan, au Manitoba et dans les Territoires du Nord-Ouest en ce qui a trait aux recherches forestières, et au transfert de technologie. Cet organisme s'intéresse surtout à la recherche en vue d'améliorer l'aménagement forestier afin que tous les Canadiens puissent en profiter aux points de vue économique, social et environnemental.

Le Centre de foresterie du Nord correspond à l'une des cinq centres du Service canadien des forêts, dont le bureau principal est à Ottawa (Ontario).

The Canadian Forest Service's Northern Forestry Centre is responsible for fulfilling the federal role in forestry research and technology transfer in Alberta, Saskatchewan, Manitoba, and the Northwest Territories. The main objectives are research in support of improved forest management for the economic, social, and environmental benefit of all Canadians.

The Northern Forestry Centre is one of five centers of the Canadian Forest Service, which has its headquarters in Ottawa, Ontario.

RÉSUMÉ

Ce document énumère alphabétiquement (par auteur) les publications scientifiques et techniques ainsi que les ouvrages de vulgarisation qui ont été rédigés par le personnel du Centre de foresterie du Nord ou publiés par le Centre entre 1994 et 1996. Un index des sujets est présenté pour les notices principales. On y trouve également à l'annexe une liste des rapports préparés dans le cadre des ententes fédérales-provinciales d'association en foresterie signées avec l'Alberta, la Saskatchewan et le Manitoba.

ABSTRACT

Scientific, technical, and interpretive publications written by staff of the Northern Forestry Centre during 1994-96 are listed alphabetically by author. A subject index is provided for the main entries. In addition there is an appendix listing reports prepared under the federal-provincial agreements in forestry for Alberta, Saskatchewan, and Manitoba.

PRÉFACE

Depuis son ouverture en 1970, le Centre de foresterie du Nord a produit une foule de documents sur la recherche forestière. Les bibliographies générales antérieures couvrent les recherches effectuées dans l'ancienne région Manitoba-Saskatchewan avant 1968 (Hidahl et collab., 1968) ainsi que les travaux réalisés dans les Prairies et les Territoires du Nord-Ouest de 1968 à 1979 (Dendwick et collab., 1980), de 1980 à 1986 (Samoil et Turtle, 1988), de 1987 à 1990 (Leroy, 1991) et de 1991 à 1993 (Leroy, 1994). Dans la dernière liste sont énumérés près de 300 ouvrages publiés par le personnel du Centre entre 1994 et 1996.

Les rapports d'information, les bulletins, les rapports spéciaux et les notes sur l'aménagement forestier, tous publiés par le Centre de foresterie du Nord, ainsi que les articles de revues scientifiques et de conférences et les publications diverses, sont classés par ordre alphabétique des noms d'auteur. Un index des sujets permet un renvoi aisé aux auteurs. Un index thématique permet un renvoi aisé aux noms d'auteurs. De plus, une annexe donne la liste des rapports préparés en vertu de l'Entente d'association Canada-Alberta en foresterie, de l'Entente d'association Canada-Saskatchewan en foresterie et de l'Entente d'association Canada-Manitoba en foresterie.

La bibliographie a pour but d'aider la recherche et ne doit pas être considérée comme un catalogue pour commander les ouvrages.

ANNEXE 1

RAPPORTS SUR LES ENTENTES D'ASSOCIATION EN FORESTERIE

Les rapports mentionnés ci-après ont été rédigés par des entrepreneurs privés ou par le personnel du Centre de foresterie du Nord et de ses bureaux régionaux de Prince Albert, en Saskatchewan, et de Winnipeg, au Manitoba, grâce aux fonds de trois ententes fédérales-provinciales d'association en foresterie, en vigueur de 1990 à 1995. Le Service canadien des forêts a administré l'Entente d'association Canada-Alberta en foresterie (30 millions de dollars) avec le Service de la protection de l'environnement, des terres et des forêts de l'Alberta; l'Entente d'association Canada-Saskatchewan d'association en foresterie (30 millions de dollars) avec le ministère de l'Environnement et de la Gestion des ressources de la Saskatchewan; l'Entente Canada-Manitoba d'association en foresterie (30 millions de dollars) avec le ministère des Ressources naturelles du Manitoba. On compte également l'Entente de coopération Canada-Territoires du Nord-Ouest (2,7 millions de dollars) entre le Service canadien des forêts et le gouvernement des Territoires du Nord-Ouest.

INDEX DES SUJETS

Dans l'index des sujets qui suit, les principaux sujets des recherches effectuées au Centre de foresterie du Nord de 1994 à 1996 sont classés par ordre alphabétique. Bon nombre d'entre eux ont été subdivisés en des catégories plus spécifiques. Pour chacun de ces sujets ou catégories, les auteurs sont classés en ordre alphabétique et les citations, en ordre chronologique. Les rapports rédigés en vertu d'ententes d'association en foresterie (énumérées à l'annexe 1) ne sont pas inclus dans cet index. Les sujets et les catégories sont les suivants :

Aménagement des paysages
Bassins hydrographiques et hydrologie
Biomasse et ENFOR (Programme de l'énergie de la forêt)
Écologie forestière et classification des stations
Épinette blanche
Épinette noire
Impacts du changement climatique
Incendie
 Écologie et comportement
 Prévision
 Suppression
Insectes
Inventaire forestier
Maladies
Paléoécologie
Peuplier faux-tremble et peuplier
Pin gris
Pin tordu
Pratiques forestières
Productivité forestière
 Croissance et rendement
 Lutte biologique
 Modèles et systèmes d'aide à la décision
Programme du Centre de foresterie du Nord
Socio-économie
 Économie forestière
 Sociologie forestière
 Valeurs autres que le bois
Sols
Substances toxiques
Téledétection
