

**NORTHERN FORESTRY CENTRE
WOODLOT EXTENSION LIBRARY
PUBLICATIONS LIST**

Revised Edition

February 1996

Canadian Forest Service
Northern Forestry Centre
5320 - 122 Street
Edmonton, Alberta
T6H 3S5

This is a joint publication of the Canadian Forest Service and
Land and Forest Service pursuant to the
Canada-Alberta Partnership Agreement in Forestry.

DISCLAIMER

The study on which this report is based was funded in part under the Canada-Alberta Partnership Agreement in Forestry.

The views, conclusions and recommendations are those of the authors. The exclusion of certain manufactured products does not necessarily imply disapproval nor does the mention of other products necessarily imply endorsement by Canadian Forest Service or Land and Forest Service.

*** Revised *reprint* of the June 1995 edition.**

ABSTRACT

The Woodlot Extension Library, established in July 1993, has acquired materials with a view to serving the information needs of landowners in Alberta, Saskatchewan, Manitoba and the Northwest Territories, resource managers and extension workers. The materials cover a variety of topics relevant to woodlot management and are available in a variety of formats including books, handbooks and manuals, reports, journal articles, pamphlets and brochures, periodicals and video cassettes. The individual items are arranged alphabetically by author within subject categories. Video cassettes are listed separately at the end of the list. The collection of the Woodlot Extension Library is constantly growing and updates to the list will be published periodically. This is the fifth edition of the Publications List.

To request material from this Publications List, either contact the Woodlot Extension Library (WEL) directly or submit a request through your local library. Material will be sent by Interlibrary Loan to the local library. With the exception of a small photocopying charge where applicable, there is no fee to use the resources of the WEL. Clients of the WEL also have access to all resources and services available in the main Northern Forestry Centre Library.
