## FOREWORD

The Alberta Woodlot Directory contains information about companies, organizations, and individuals who supply goods or services to owners of private forest lands in Alberta.

Managed forest cover on private land is commonly referred to as a **woodlot**. Woodlot owners may manage their forested lands for a variety of purposes or products such as: conservation, wildlife habitat, recreation, lumber, transplant stock, aesthetics, crafts, furniture, or numerous other non-timber products like herbs, mushrooms, or berries.

The purpose of the Alberta Woodlot Directory is to link landowners with the programs, services, information, and people who can help with the successful management of their woodlot. The information in this Directory will be of interest to all landowners: those with woodlots, and those wanting to develop a woodlot.

## DISCLAIMER

The information in this directory includes only those companies, organizations, and individual who have been contacted directly or have responded to our advertising and have supplied us with information and a request to be listed. This directory should not be considered a complete list for Alberta.

The category in which each supplier is listed and the services they provide were chosen by the supplier, without detailed verification by the Department of Environmental Protection. To prevent excessive duplication by suppliers of services in more than one category, and to help fit the information into the space available, some editing has been done. Please call the firm, organization, or individual to determine specifics.

## HOW TO USE THIS DIRECTORY

This directory is organized into three distinct parts to help the land owner quickly locate the supplier or suppliers of interest. PART I contains a set of tables for each of 10 industry sectors. This is used to find out which firms provide the services you want. PART II then provides detail needed to contact the firm or individual.

PART III is a list of reference materials which includes other publications, newsletters, periodicals and directories that may further assist the land owner.

Included on the final page of this book is a tear out Request for Inclusion or Update form for companies or organizations who wish to be included in the next edition of the **Alberta Woodlot Directory** or who wish to change their existing information.

### STEP 1

Decide which service sector you are interested in. The choices are:

SECTOR	PAGE
1. INSTITUTIONS AND ASSOCIATIONS	3
2. PURCHASERS OF TIMBER AND TIMBER PRODUCTS	6
3. PURCHASERS OF NON-TIMBER FOREST PRODUCTS	14
4. FORESTRY CONSULTANTS	16
5. TREE NURSERIES	23
6. CONTRACTORS - LOGGING AND HAULING	25
7. CONTRACTORS - REFORESTATION	31
8. CUSTOM SAWMILLING SERVICES	34
9. EQUIPMENT SUPPLIERS	38
10. SPECIAL SERVICES AND OTHER	42

### STEP 2

The tables in PART I indicate the type of service provided by each firm listed in that sector. If you are interested in a particular service, simply look down the column for a "•"-marker and note the name of the firm or individual.

### STEP 3

Flip to PART II and use the alphabetical listing to locate the full company name, address, phone/fax numbers and a brief description of what the company or individual specializes in.

*Note: Many companies provide services in more than one sector, and they may also provide services that do not fall within our categories, so it is best to contact them directly to ask if they can meet your needs.*
