ABSTRACT

The newly established Woodlot Extension Library has acquired materials with a view to serving the information needs of landowners in Alberta, resource managers and extension workers. The materials cover a variety of topics relevant to woodlot management and are available in a variety of formats including books, handbooks and manuals, reports, journal articles, pamphlets and brochures, periodicals and video cassettes. The individual items are arranged alphabetically by author within subject categories. Video cassettes are listed separately at the end of the list. The collection of the Woodlot Extension Library is constantly growing and updates to the list will be published periodically.
