

# THE TRUTH ABOUT DEFORESTATION IN CANADA

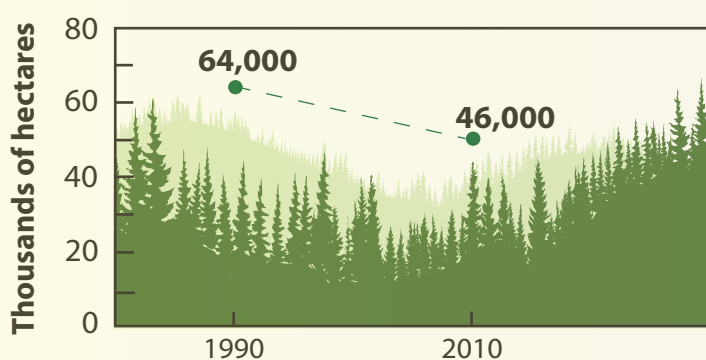

## Canada's deforestation rate is among the lowest in the world

## Harvesting, forest fires and insect infestations do not constitute deforestation

## Deforestation is decreasing

Canada has reduced deforestation over the past 20 years.

## Logging is not deforestation

All areas harvested on public land must be reforested, either by replanting or through natural regeneration. About 94% of Canada's forests are on public land.
